Digital SkillUp Communication Pack

Final Event
December 2021

This project has received funding from the European Union.
This communication reflects only the author's view. It does not represent
the view of the European Commission and the EC is not responsible for
any use that may be made of the information it contains.

Introduction

As we approach the end of the Digital SkillUp project, we would like to take the opportunity to share our experience with all digital skills actors and explore together how we can go beyond Digital SkillUp and work towards inclusive, sustainable digital upskilling for all.

For this reason, we are organising the closing event of the initiative entitled **'Path to the Digital Decade: Upskilling in Emerging Technologies'** taking place online on **9 December at 9:30-12:00 CET**. We value your expert input, and wholeheartedly invite you to both join the event and help us disseminate the information about it to your networks.

Here you can find the [detailed agenda](#) and [register](#) for the event.

We encourage you to use the copies as proposed for each online communication channel or mix and match the content to make it more impactful for your specific audience.

Thank you for your help – we appreciate it!

Path to the Digital Decade: Upskilling in Emerging Technologies – join the final Digital SkillUp event

What is the impact of emerging technologies on European citizens and businesses? How can we prepare to face the challenges and leverage the opportunities that they bring? How do we achieve an inclusive and sustainable upskilling process that leaves no one behind?

Join the Digital SkillUp Final Event entitled *Path to the Digital Decade: Upskilling in Emerging Technologies* on 9 December 2021 to:

- learn about the European Commission's Digital Decade targets and ways to reach them,
- discover the Digital SkillUp approach to training for citizens and businesses, and
- help to define the way forward to digital upskilling for all.

Find out more and register here: <https://www.digitalskillup.eu/articles/path-to-digital-decade-final-event/>
